

8 NOV 1976

MEMORANDUM FOR: Deputy Director for Administration

FROM : Robert W. Gambino
Director of Security

SUBJECT : Office of Security Liaison
at the Cabinet Level

1. This memorandum is for your information and is in response to a telephone request received from your office on 5 November 1976. The requirement was for information regarding "any association the Office of Security has with Cabinet level individuals, down through and including Assistant Secretary level. Names, titles, and departments are required." All Headquarters components of the Office of Security were queried pursuant to this requirement.

2. One example which may remotely fit is that periodically throughout the year the Office of Security does the staff work pertaining to safety programming pursuant to letters that are received by the Agency over the signature of the Secretary of Labor. These requirements take the form of responding to the reporting requirements of the Occupational Safety and Health Act of 1972.

3. The Special Security Center is in contact at this time with the Assistant Secretary of Commerce for Administration, Mr. Joseph Kasputys. The contact relates to a Commerce Department proposal that a memorandum of understanding be executed by Commerce and CIA regarding the security of foreign intelligence materials provided to Commerce.
